# GDP Pharma Shipping

## GDP compliant shipping to Russia

25 years experience

MED. EQUIPMENT - SPARE PARTS SERVICE - DDP FREE DELIVERY - URGENT SPARE PARTS DELIVERY

We deliver nationwide GDP to Russia and to the CIS countries via:

- EXPRESS
- AIR FREIGHT
- TRUCK SPECIAL TRIP

MM Go East GmbH offers a wide range of services for pharmaceutical transport.

You can count on 25 years of experience and competence of our staff (including Russian native speakers) to provide you with safe, reliable and smooth transport.

Our goal is to offer you an efficient logistics solution that meets the requirements of Good Distribution Practice (GDP).

MM Go East GmbH has been confirmed to meet the extensive requirements of the guidelines for **Good Distribution Practice** of pharmaceuticals for human use (GDP).

Clinical studies, Investigational Medical Products, medical samples, laboratory specimens depend on a perfectly time-defined and temperature-controlled as well as fast transport route by road or air freight during shipping.

# Transport solutions

## Cost-benefit analysis

We carry out pharmaceutical transports via road or air freight up to full charter.

A cost-benefit analysis with consideration for air freight or truck transport is our daily procedure to offer our customers quality at the best possible price and safety for the goods.

We always have sanctions in mind and consignee as well as involved parties are checked in our system.

A high performance product is not a coincidence, but the result of adept, quality-conscious work, without losing sight of the costs.

- MEDICAL EQUIPMENT
- MEDICAL DEVICES
- SPARE PARTS SERVICE
- DDP FREE DELIVERY
- URGENT SPARE PARTS DELIVERY

# Partner & Network

## WORLDWIDE

Air freight is a safe and fast way to transport your international shipments.

With our global network of air freight partners, we have developed special solutions to meet the requirements of the healthcare and pharmaceutical industries.

In addition, MM Go East is already a long-standing partner of the worldwide X2 Elite Critical Logistic group.

Each partner undergoes an extensive validation process, which ensures that our services always meet the quality requirements of our customers.

Through our strategic partnerships we have a Europe-wide pharmaceutical refrigerated transport network.

### Worldwide reefer container logistics (FCL and LCL) / Sea freight

The cost-effective supplement and alternative to air freight import&export  
As an international freight forwarder and specialist for pharmaceutical logistics, we offer an interesting supply chain solution for LCL / FCL reefer containers – as an alternative to the often costly air freight. Via our own Thermo-HUB Hamburg, we ensure full-service goods transport by ship according to the door-to-door principle, including a secure, continuously monitored temperature chain. In particular, this enables us to reach the markets in Asia (e.g. China and India) and – via the DUBAI HUB – numerous Middle Eastern countries (e.g. Emirates).

# Stock turnover Frankfurt

## Temperature controlled warehouses

Located directly at Frankfurt Airport

15 minutes drive away from us is the pharmaceutical warehouse of our GDP warehouse partner.

The temperature controlled warehouses have been certified by the European Institute for Pharma Logistics.

(+2°C/+8°C or +15°C/+25°C).

- Permanent temperature control
- Compliance with hygiene standards
- Alarm notification systems
- Qualified personnel
- Packaging systems
- Security access gates

Pharmaceutical products, medical gases and medical technology are stored on 3,500sqm warehouse in compliance with the EU directive GDP.

We also represent the transport of pharmaceutical units, such as RAPs with our certified vehicles.

MM Go East - We have the right climate

Tel Nr. 06107-4076291

# Packaging and all that goes with it

## Standard Operating Procedure

Need-based packaging for sea, air and truck transportation.

Dangerous goods packaging & preparation of the Shipper's Declaration.

Optimization of packaging in cartons or on pallets – cost-saving solutions.

If necessary our driver comes with the required packaging and temperature logger one-time device for pick-up . This includes the pickup at your shipping location by our GDP trained courier driver, who will bring you the thermal packaging already ordered for your special goods shipment at the already conditioned room temperature, after packing your goods immediately go on the shipping route , e.g. as a special transport by road to your final destination, are flown via GDP temperature-controlled air freight transport immediately to the destination country.

The shipments require the highest attention and professional handling at all times from continent to continent with temperatures of  $-196^{\circ}$  degrees nitrogen, dry ice  $-79.5^{\circ}$  degrees,  $-25^{\circ}$  degrees (Frozen) ,  $+2^{\circ}$  to  $+8^{\circ}$  degrees (Cool) ,  $+15^{\circ}$  to  $+25^{\circ}$  degrees (Ambient) with cold packs in packaging solutions and with a possible volume of 3.5 liters to 3000 liters, also in active air cargo containers e.g. Envirotainer.

# Transparent process

## Standard Operating Procedure

Shipping pharmaceuticals is a demanding, sensitive task. After all, it is a matter of patient safety.

We are aware of the responsibility and understand what it means to transport our customers' high-value goods safely from pickup to delivery.

Throughout the transportation process, our GDP-trained team monitors the smooth flow of your shipment and ensures that it is handed over to the recipient as scheduled.

Nevertheless, if there is a delay, all parties involved are informed immediately.

This allows, for example, the delivery date to be adjusted and any impact to be minimized.

With the help of our documented Standard Operating Procedure (SOP), we ensure that deviations are investigated and remedial measures are defined and implemented.

# Lightning-fast shipping of medical technology goods!

Spare and individual parts for pharmaceutical production

Qualified on-board couriers transport your urgent shipments on the next possible scheduled flight. At the destination/airport, these shipments can be cleared through customs by our own staff on request and delivered door to door delivery.

Our transportation times are between 12 and 36 hours, depending on the destination.

All types of goods can be transported in this way, provided they do not violate import and export regulations or the air traffic regulations for passenger baggage. regulations for passenger baggage.

Customs clearance of ordered goods is also possible, subject to prior agreement with the recipient.

MM Go East - We have the right climate  
Tel Nr. 06107-4076291

# Air freight CIS states

## Air freight shipping with or without forwarding to the recipient

We offer you top conditions for air freight shipments to all destination airports in the CIS states.

We can also cover destinations such as Norilsk, Vladivostok, Komsomolsk, Khabarovsk or the island of Sakhalin, which are almost impossible to reach by truck, by air freight.

Deliveries from the airport to the recipient can also be realized, regardless of whether the goods have already cleared customs or are customs goods. A cost-benefit analysis is carried out for every offer to check whether it is more advantageous (or cheaper) for our customer to transport the shipment by truck.

# Construction / Technicians / CIS states / Worldwide

**Are you planning an installation service in the CIS states, China, the USA or anywhere else in the world?**

For over 20 years, we have been supplying technicians on site with the spare parts, tools and materials required for installation. Our service is designed to provide our customers with a smooth installation, saving them time and money. By choosing different delivery times, our customers can complete the system/machine for their customer on schedule, without inconvenient waiting times and delays. However, our service goes even further: we can not only deliver the required tools and spare parts, but also retrieve defective parts and transport the tools directly to the next construction site.

As a result, our customers can be sure that they always have the parts they require and that no unnecessary costs are incurred.

Our goal is to provide our customers with a seamless service that helps them to successfully complete their projects. Do to our long-standing partnership in the CIS states as well as our global partnership in the X2 Elite / Critical Logistics group, it is possible for us to provide excellent service anywhere in the world.

We look forward to helping you with your project and will be happy to provide you with advice and assistance at any time.
