

MM GO EAST GMBH

SHIPPING EXPERTS
GUS STATES & WORLDWIDE

MM GO EAST GMBH

The company - Our strengths

MM Go East GmbH is an internationally active transport and logistics company with a focus on pharmaceutical and DDP shipments to the CIS states. Together with our partners and a large network, MM Go East GmbH also offers you worldwide transportation solutions. Our location in Kelsterbach is in the immediate neighborhood of Frankfurt Airport, which enables us to react quickly.

Our strength: CIS Air freight

The core competencies of our company are international air freight, pharmaceuticals and DDP transportation to the CIS states. The range of services is supplemented by road freight transportation, heavy goods transport, sea freight, customs clearance and express deliveries. Whether parcel shipping or project business - together with our partners, we can realize nationwide delivery in all CIS states, regardless of the mode of transport. MM Go East has options for worldwide shipping, but is and remains specialized in the CIS states and subsequent countries:

- Armenia ▪ Azerbaijan ▪ Georgia ▪ Kazakhstan
- Kyrgyzstan ▪ Moldova ▪ Mongolia ▪ Russia
- Tajikistan ▪ Turkmenistan ▪ Ukraine
- Uzbekistan ▪ Belarus

Baltic States: Estonia, Latvia and Lithuania

- Iran ▪ Turkey

We specialize in supplying your customers in the GDP/pharma (Good Distribution Practice) sector or your fitters on site with the required spare parts and tools as quickly as possible. We are also happy to take care of trade deliveries or the onward shipment of tools to the next place of use or the collection of defective parts for you.

We keep hearing from new customers that exports to CIS countries are so problematic. But this is not so when you work with our experts. Our worldwide clientele has trusted our team and our reliable and dependable service to these countries for over 20 years. Convince yourself that exports to these countries can be very easy and predictable with the right partner at your side.

Our strength: Owner-managed

We are an owner-managed company and can therefore act unbureaucratically and quickly. Long-term partnerships in the CIS states, some of which have existed for over 20 years, guarantee smooth processes. Our employees have many years of experience in CIS shipping and are therefore familiar with all the nooks and crannies that can arise during export or import shipments.

MM Go East GmbH also has employees who speak Russian as their native language. This means that we can also take care of communication with your customers in Russia and translate documents to prevent misunderstandings and problems during shipping.

Our strength: Sustainability

THINK ECOLOGICALLY - ACTIVELY REDUCE CO2

Ecological factors are playing an increasingly important role in the transportation and goods traffic sector. We make our contribution to a sustainable approach to our environment and raw materials and would like to create a regional balance.

That is why we are involved in ecological projects, including with HessenForst Forstamt Groß-Gerau. We plant one tree per calendar day around Frankfurt Airport and thus actively help to reduce CO2 emissions.

Our Service

Everything from a single source, starting with planning and cost optimization as well as implementation of the actual transport, for example: Pharmaceuticals, urgent spare parts, large machines, production lines or site relocations on all possible modes of transportation by land, air and sea. Supporting the supply chain during a project through storage, packing, picking and shipping options.

We are the right partner for every transport route. Whether rail, truck, special transports, special deliveries, consolidations, air freight, charter, express and on-board courier or emergency logistics. Our dedicated, bilingual and experienced team is ready to take on all the challenges involved in carrying out your freight projects.

- Cost-effective alternative for shipments whose delivery is not so urgent for the customer

Service and special rates for shipping campaigns, such as samples, catalog shipments, Christmas presents.

Express shipping CIS states

We deliver DDP to the CIS states, nationwide

We will check all the possibilities for you and choose between the following options:

- On Board Courier / OBC
- Air freight
- Truck or van special delivery
- Express shipping
- Charter

MM Go East always keeps an eye on sanctions and these are also checked by the system and manually.

Of course, we are also available to advise our customers in this regard.

EVERY MINUTE COUNTS

Line / production standstill

Qualified on-board couriers transport your urgent shipments on the next possible scheduled flight. At the destination/airport, these shipments can be cleared through customs by our own staff and delivered free to your door.

Our transportation times are between 12 and 36 hours, depending on the destination.

All types of goods can be transported in this way, provided they do not violate import and export regulations or the air traffic regulations for passenger baggage.

Customs clearance of ordered goods is also possible, subject to prior agreement with the recipient.

Construction / Technicians / CIS states / Worldwide

Are you planning an installation service in the CIS states, China, the USA or anywhere else in the world?

For over 20 years, we have been supplying technicians on site with the spare parts, tools and materials required for installation. Our service is designed to provide our customers with a smooth installation, saving them time and money. By choosing different delivery times, our customers can complete the system/machine for their customer on schedule, without inconvenient waiting times and delays. However, our service goes even further: we can not only deliver the required tools and spare parts, but also retrieve defective parts and transport the tools directly to the next construction site.

As a result, our customers can be sure that they always have the parts they require and that no unnecessary costs are incurred.

Our goal is to provide our customers with a seamless service that helps them to successfully complete their projects. Due to our long-standing partnership in the CIS states as well as our global partnership in the X2 Elite / Critical Logistics group, it is possible for us to provide excellent service anywhere in the world.

We look forward to helping you with your project and will be happy to provide you with advice and assistance at any time.

Air freight CIS states

Air freight shipping with or without forwarding to the recipient

We offer you top conditions for air freight shipments to all destination airports in the CIS states.

We can also deliver by air freight to destinations such as Norilsk, Vladivostok, Komsomolsk, Khabarovsk or the island of Sakhalin, which are almost impossible to reach by truck.

Deliveries from the airport to the recipient can also be realized, regardless of whether the goods have already cleared customs or are still customs goods.

A cost-benefit analysis is carried out for every offer to check whether it is more beneficial (or cheaper) for our customer to transport the shipment by truck.

Sea Freight

Sea freight:

Sea freight enables almost unlimited capacities at comparatively low prices with corresponding tonnages. With our sea freight partners in Hamburg and our worldwide partners as well as the world's largest shipping companies, we offer you sea freight import and export and ensure that your shipment is dispatched quickly and at calculable costs.

Worldwide pick-ups possible in all countries with the professional service of the Worldwide X 2 Elite Partner Group, import handling at all German and worldwide seaports

Our sea freight services are also ideal for companies looking to ship large and heavy goods. We offer a wide range of services tailored to the needs of our customers. With our experience and knowledge of the sea freight industry, we can guarantee fast and reliable delivery of your shipments. We work with the largest shipping companies worldwide to ensure that your shipments are transported in the fastest and most efficient way. Our professional partners in Hamburg and worldwide ensure smooth handling of imports and exports at all major seaports worldwide. We also offer pick-ups and ensure that your shipments reach their destination safely and on time. You can rely on calculable costs and excellent service, with us.

Import

Import:

Import clearance at Frankfurt Airport.

Our location in Kelsterbach is in the immediate vicinity of Frankfurt Airport, which enables us to react quickly.

Import clearance at other locations/airports/seaports on request.

We offer professional import clearance at Frankfurt Airport. Our location in Kelsterbach guarantees fast and efficient processing of your imported goods. With our experienced team, we ensure that your shipments are processed as quickly as possible and are available to you promptly.

Of course, we also offer import handling at other locations and airports. From the first contact to the delivery of your goods, we are at your side as a competent partner. We take time for you and your concerns in order to find individual solutions and guarantee your satisfaction.

Please contact us for further information and a non-binding offer. We look forward to assisting you with your import clearance.

IMPORT

Trucks Russia / CIS states

Land transportation of all types to the CIS states

Truck consolidation to Russia is only possible to a limited extent, as Germany currently has too little freight volume. This means that typical groupage services can no longer be maintained.

Either partial routes are being handled as special deliveries, which leads to high prices, or waiting for combination options, which can lead to extremely long transit times.

In most cases, air freight shipping with delivery is the better and often cheaper alternative.

We will check this route on request.

Low-cost consolidation by truck and direct transportation from Germany or Europe to the CIS states - that is what we offer. We offer you a cost-benefit analysis to check whether it is cheaper for you to transport the shipment by air freight. We can also make special transports and project logistics happen.

Our goal is to offer you a fast and efficient solution for your logistics problems. We work with the best technology and experienced staff to ensure a smooth process. Our network enables us to offer you a wide range of services customized to your specific needs.

Our team is always on hand to help and support you. We will be happy to advise you on choosing the right transport option and help you plan and implement your logistics projects. Our aim is to provide you with an efficient and cost-effective solution to your logistics problems.

If you would like to find out more about our services, please contact us. We look forward to receiving your request!

- Project logistics as well as heavy and special transports
- Transportation of particularly large goods and consolidation
- GDP/Pharma & refrigerated transport & DGR transport
- Preparation of EX-1 / import declaration
- DDP service / spare parts shipping & warranty deliveries

PROJECT LOGISTIC IS TEAMWORK

Teamwork is our strength

With our "Project Logistics" division, we want to provide you with a complete package for your logistics requirements.

Here, all of MM Go East's specialist areas interlock like clockwork. According to the motto "there's no such thing as impossible", we not only offer you a transport solution from "A to B", but also take care of everything else related to your order.

Do you want to store your goods at their destination or during transit? Do you have special requirements before, during or after transportation?

We at MM Go East offer you an all-round service for your logistics project. Contact us and together we will find a perfectly customized solution for you.

TRADE FAIR

Are you planning a presentation at an exhibition in the CIS states, China or the USA?

The professional planning and successful execution of a exhibition event is only possible with a logistics provider who has the necessary specialist knowledge and, above all, the expertise in the respective country of the exhibition event. Transportation to the exhibition and professional handling on site is a basic requirement for this. Our aim is to combine this and plan it with you so that the exhibition event is as successful as you want it to be.

We take care of the entire exhibition event or just the delivery or subsequent delivery of consumables. Experience has shown that this is where complications often arise with other logistics companies and the surprise is great when the complete stand is set up but the advertising material is not available because it is still undergoing customs clearance.

Our many years of experience, first-class contacts abroad and professional expertise as well as employees who speak the local language allow you as an exhibitor to concentrate on the actual work, namely a successful trade fair presentation and customer care.

Instead of having to greet your customers with a makeshift stand due to a lack of consumables and advertising materials or even delays to the stand.

Thanks to our worldwide partnership in X2 Elite / Critical Logistics, we can offer you an excellent service anywhere in the world
